[MY PORTFOLIO](#)

CAREER OBJECTIVE

Motivated Full-Stack Web Developer with practical experience building responsive, secure, and user-friendly applications. Proficient in JavaScript, React, Node.js, and many other frameworks, with solid knowledge across both front-end and back-end development. Transitioning from a management career, I bring strong problem-solving abilities and proven communication skills. I am seeking a junior developer role where I can contribute to meaningful projects and grow within a collaborative team, while also exploring freelance opportunities to gain experience with real client projects.

EDUCATION

Full Stack Software Developer Pathway | BCS Accredited (Currently Studying)

- Coding Essentials
- Front-end Development
- Back-end Development

CORE SKILLS

HTML	CSS	JavaScript	React	Redux	Tailwind	Bootstrap
Python	Django	Node.js	Express.js	SQL	MongoDB	Git
GitHub	RESTful Api	Postman	Firebase	Cloudinary	Stripe	JWT
Cookies	UX & UI	Project life cycle	Agile Methodology	Quality control	Web Development	Frontend Development

KEY PROJECTS

Quick Pop – Hourly Accommodation & Host Booking Platform

2025 |  [Live Demo](#)

- Built a full-stack platform inspired by BYHOURS-style hourly bookings.
- Integrated **Google Maps API + geolocation** for browsing nearby hosts and interactive map navigation.
- Implemented full **CRUD functionality** for users, accommodations, bookings, reviews, and wishlists.
- Secure **Stripe integration** for premium host payments - free hosts bookable directly.
- Designed an **admin dashboard with charts/graphs** for users, hosts, bookings, and revenue insights.
- Added advanced **filters** for premium/free hosts, services, costs, and utilities.
- Developed **wish list system, reviews & ratings**, and **real-time availability checks**.
- Authentication with **JWT + cookies**, password reset, and role-based access.

Tech: React, Redux, Node.js, Express, MySQL/Supabase, Google Cloud, Stripe, Tailwind CSS, Cloudinary, JWT

Rental Car Booking Website

2024 |  [Live Demo](#)

- Built a full-stack car rental platform using the MERN stack.
- Real-time booking with vehicle availability, date selection, and checkout.
- Admin dashboard with full CRUD for vehicles, users, and bookings.
- Integrated Stripe for secure payments and Cloudinary for car image uploads.
- JWT & cookie-based role-based access control.
- Passwords hashed securely using bcrypt for authentication.
- Filtering and sorting system for better user experience.
- Responsive UI styled with Tailwind CSS

Tech: MERN Stack (MongoDB, Express, React, Node.js), Stripe, Cloudinary, Tailwind CSS

Plant E-Commerce Platform

2024 |  [Live Demo](#)

- An e-commerce site for plant products using the MERN stack.
- Secure authentication with JWT, role-based admin/user access.
- Product reviews, filtering, search, and sort functionality.
- Payments via Stripe, image uploads with Cloudinary.
- Efficient data handling using Redux Toolkit Query.
- Responsive and modern UI with Tailwind CSS.

Tech: MERN Stack (MongoDB, Express, React, Node.js), Redux Toolkit Query, Stripe, Cloudinary, Tailwind CSS

PROFESSIONAL EXPERIENCE

Norco AgriSolutions

Warehouse Manager

Queensland, Bundaberg | 2023 – current

- Managed daily warehouse operations, ensuring timely deliveries and accurate stock control.
- Coordinated logistics, order processing, and dispatch to support business efficiency.
- Delivered customer service at both counter and delivery levels, resolving issues quickly.
- Handled banking and cash management with attention to accuracy and accountability.
- Developed strong problem-solving, leadership, and organizational skills in a fast-paced environment.
